AS A PROJECT DRAGS ON, MY GIT COMMIT MESSAGES GET LESS AND LESS INFORMATIVE.

Don't be lazy with your commit messages

Git/GitHub

- Fork the course's git repository to your github account
<https://github.com/phuongnghiem/Python-2026-L1.git>
- Clone your forked repository to your home directory
<git@github.com:<YourAccount>/Python-2026-L1.git>
- Edit «README.md», write your name as instructed
- Make a new commit with a message “First student commit”
- Push your new commit to your forked github repository

Git/GitHub

- With labwork1
 - Name it as ***labwork1.py***
- With labwork1b
 - Name it as ***labwork1b.py***
- Push your two labworks to the forked GitHub repository
